San Antonio Radio Club  
W5SC

2020, No. 7 July 2020

**Hams I've Known** *I was first licensed at KA4JIX in 1979. From 1977 until 2001 I lived in Northern Virginia and worked for Headquarters Army for 20 years. In that time I met several notable people who were hams. One of the most notable was Vic Clark, W4KFC. I had*

*heard he was instrumental in bringing about the instrument landing system for aircraft, something that saved countless lives. I met him several times at ham events and club meetings he visited. He passed away in November 1983. Like the accomplished guys in the San Antonio Radio Club, Vic was a humble, quite guy. Here is an article from 73 Magazine about him. (Jim, WJ4M)*

### Vic Clark (From 73 Magazine)

If somebody ever came up with a short list of a Hall of Fame' for ham radio operators, certainly Vic Clark, W4KFC, would be on it. Vic was a world class CW operator and contest operator. He held many positions in the ARRL, including that of President, and helped to found what has become one of the largest contest clubs in the country, the Potomac Valley Radio Club (PVRC). Hams will never know how much Vic contributed to ham radio and the American Radio Relay League. Vic did not have a big ego, and frequently gave credit to others for his ideas.

Briefly, during the 50 years Vic was licensed, he

**The July 9 meeting, like the May meeting will be 7 PM on line via Zoom. Check either the web page, your E-mail or the newsletterarticle for instructions to join in.**

served the ARRL as Arizona Section Communication Manager from 1937-1939, as Virginia Section Communications Manager from 1952-1954, as an ARRL Assistant Director from the Roanoke Division from 1952-1966, as Director from 1967-74, as IARU Vice President 1974-6, as an IARU Region 2 (South/Central America) President 1976-80, ARRL First Vice President from 1974-80, and ARRL President from 1982-until his death in November, 1983.

Vic won numerous contests, taking first place in CW Sweepstakes in 1947, 1950, 1952, 1958, 1964, and 1965 in the single operator, high power class. Just before he passed away, Vic was speaking at a New York hamfest and he asked the audience how many of them had worked him on the air. Fully three quarters of the audience raised their hand to indicate they had worked him!

Vic was licensed in 1933 as W6KFC. He was 16 years old, and living with his parents in Arizona. Just three years later, in 1936, Vic came in second in the ARRL CW Sweepstakes. Vic was an active contester and traffic handler. In 1936 the ARRL awarded Vic the first Hiram Percy Maxim award to him for his amateur activities.

Vic served with the Federal Aviation Administration from 1941-62, directing the establishment of the Instrument Landing System (ILS) at airports throughout the US and assisting with the implementation of the system in other countries. He then became Director of the US Coast Guard' Electronics Engineering Laboratory in Alexandria Virginia, and retired in 1973.

To W5SC

Dear members and friends,

My first order of this newsletter is to let you know that for the meantime, Club meetings at SARC are suspended. If it makes you feel any better, all Club meetings of any kind, not just us, are all in the same boat. We will continue to have virtual Club meetings via the ZOOM app. E-mail logins links were sent to all of our members. We are witnessing an evolution of Amateur Radio around the world. COVID-19 is just another catalyst that forces us to think wider than before, adaptive and think about changing seriously. If you need help call on the Elmer's, Tech Talk Wednesday via ZOOM.

We were skeptical to accept new modes, In June 29, 2017 Joe Taylor K1JT announced the new mode in the WSJT-X FT8 and later FT4 was available. I used WSJT-X for FD2020 and had a great time. Hope everyone had a great Field Day weekend.

Keep Calm, Stay Home and Get on the RADIO!

Good DX

The due date for articles is the **Monday** before the first **Thursday** of the month.

San Antonio Radio Club

Minutes of Meeting, June 11, 2020

Blanco BBQ, 13259 Blanco Rd., Dan Antonio, TX 78216

President Rosendo Guzman, N5YBG, called the meeting to order at 7 PM, 15 members present.

The primary purpose of this meeting was raffle tickets and Field Day 2020.

Minutes of the last meeting were approved.

There were no changes to the proposed agenda, so the agenda was approved by unanimous consent.

The President announced that a club member had been in the hospital with Covid-19. Another, new member, has fallen and suffered a broken leg. He had just upgraded to General.

Officer Reports:

Vice President Lloyd Swartz, KF5ZHW—Lloyd led a discussion on various ways presentation of future programs could be accomplished either on line or at the meeting location. As long as the present location is available the club will continue to have meetings there. Previous meetings have been held on the internet via Zoom, because restaurants were closed due to the Covid-19 virus. While Zoom was adequate for general meetings, there were problems associated with doing a video presentation. Zoom is more amenable to PowerPoint presentations. There was discussion about using presentations available on U-Tube. Lloyd asked that members contact him with ideas for presentations for meetings.

Secretary Jack Bannin, N5JLB -- Minutes of the last meeting are posted on the newsletter

Treasurer Jeff Boyes ND8B – No report

Newsletter Editor Jimmie Neff, WJ4M – The June newsletter was published on the 9<sup>th</sup>. Jimmie requested that members submit articles for the newsletter. Deadline is Monday before the first Thursday of the month.

Webmaster Bill Craft, KD2HIQ – Activity: Groups IO updated membership, sent out Zoom meeting info via Mail Chimp, added new members, Twitter.

--Facebook statistics: 109 Views, 71 reach, 20 Followers

-- Website Statistics: Sessions 607 (7% increase); Page Views 1221 (Down 3%); New vs Returning visitors: New 62%, Returning 38'5. Device br Desktop 66%, Tablet 4%, and Mobile 30%.

Membership Bill Craft, KD2HIQ – As of May 31, 2020, 105 paid members, 16 free, 10 family members. ARRL members: 70. Total membership: 131.

Chairman of the Board Report – Harold Fleischer, AE5AS: No report

Education and Training David Finell, N7LRY – David has plans on making several 45-minute videos for the training so individuals will have nice bite-sized pieces. He will also provide an email to address the questions from students.

Executive, Rosendo Guzman, N5YBG – Tickets for the Robert (Bob) Rodriguez Fundraiser have arrived. Only 400 tickets were printed. 30 have sold so far.

Emergency Communications Joe Bruno, W5AUQ – No report.

Field Day Joe Bruno, W5AUQ -- The Field Day event at Shavano Park is cancelled, the facility is not available due to ongoing construction. There was discussion of temporary ARRL Rule Waivers for Field Day 2020 that allow individual operators to register affiliation with the club. There are a few members who will participate in Field Day at the club’s storage facility on FM 78. Most will operate from home.

Finance and Review Paul Guido N5IUT—No Report

JOTA John Douglas, W5NZK – No Report

Silent Key Committee – The committee has been aiding the family of a ham who passed away at age 93. What seemed to be a small job turned out to be a large collection of amateur radio equipment from a hobby spanning over 50 years. The items were inventoried for the family who wish to sell the equipment to help pay for care for the ham’s wife. The club does not get involved in the sale of equipment, nor do any of the committee comment on possible value. They do advise the family on where they may find information as to the worth of equipment. Committee members strongly advise club members to provide for disposal of their equipment should the need arise This includes doing a complete inventory and documenting the value of their equipment either using sales records or references to places like E-Bay.

Radio Fiesta – President Rosendo Guzman, N5YBG, spoke to Sarah from Schertz Civic Center confirming reservation for January 8<sup>th</sup> and 9<sup>th</sup>. Sarah also said in the event the Covid-19 situation requires cancelling the club will be reimbursed.

VE Team Pat Knight, AD5BR – We still hope to have our net regular VE session Jne27 at 10 AM at the Great Northwest Library, 9050 Wellwood. We do not have enough information on the library reopening after the coronavirus closure to count on the June 27 test session at this point. The GNW Library will allow contactless pickup starting June 16. That is progress, but not enough for a test session. Those wanting to test on June 27 need to pre-register at hamtest@gmail.com so we will know how to contact you. We will let you know when we know if our test location will be available. There was some discussion about other club VE test sessions elsewhere. Individuals who were referred to those sessions by club members have chosen to join SARC. The Extra exam questions will change July 1, 2020 so those wishing to upgrade to Amateur Extra should go ahead and study to hopefully do it before July 1.

Logo Committee Pat Knight, AD5BR – No Report

Centennial Commemoration (Temporary) Tom O-Brien, AB5XZ – No Report

Scholarship Committee Tom O’Brien AB5XZ – No Report

Old Business (Motions carried over from previous meetings) – None

New Busines (Must be presented as a motion) -- None

Announcements for the Good of Amateur Radio – Richard Eiler brought several items to the meeting for give-away. They included copies of QST; an oscilloscope with plans to build a circuit that will allow a person to monitor their SSB audio on the ‘scope; some tubes that can be mounted on wood bases with a bulb underneath to light them up like a small lamp, and a DC-powered mobile printer.

Meeting was adjourned at 8:01 PM.

## From the President, Topic: SARC Meetings

## Volunteer Examiners at Work

This is the July 2020 Bexar Wire report for the VE team.

We did not have a June test session due to the city's COVID-19 policies. The library is not allowing any group meetings (besides early voting) at this time. If the policies improve to allow it, we hope to have our next regular VE session August 22 at 10 AM at the Great Northwest Library, 9050 Wellwood.

If you know an alternative location where about 16-20 people could have social distancing at tables for exams, please let me know. Currently the city and county do not allow most groups of more than 10 people to gather.

If you want to test August 22, please pre-register so we know how to contact you. We will let you know when we know if our test location will be available.

Pre-register at hamtest@gmail.com

The Extra exam questions changed July 1, 2020, so be sure that you are studying the current questions.

73, Pat Knight AD5BR 210-273-5927 iPhone

### Silent Key Committee Announcement: Robert A. Rodriguez Scholarship Fundraiser tickets on sale at Silent Key Estate Sale Friday July 10th, 2020

An inventory listing and pictures can be downloaded/viewed viewed on SARC website at <https://w5sc.org/silent-key-estate-sale/> Map to location also on web site.

Robert A. Rodriguez Scholarship Fundraiser

Here is your chance to get in on our annual scholarship raffle. One lucky person will walk away with the grand prize of a **ICOM IC-7610 HF/60MHz SDR radio!**

Only 400 raffle tickets will be sold! Tickets are \$25 each. Proceeds from the raffle support our annual scholarship recipients. Two \$1,000 scholarships will be awarded to winning candidates who meet the ARRL Scholarship guidelines.

All ticket holders are invited to the drawing party on CHANGED TO AUGUST 13th, 2020 -Blanco BBQ. It will be at our regular AUGUST meeting and the drawing for the **\$3,200 ICOM radio** Grand Prize will be before the presentation. Second, third and four prizes of Icom Radios will also be drawn. (Note, pending Covid-19...Ed.)

### **Bear Wire in 2004**

Thanks to Richard Elder (WB5ACN) for a newsletter from the past. Wonder what the Bear Wire looked like in 2004? What was happening in 2004 in SARC. View the 2004 newsletter at <https://w5sc.org/wp-content/uploads/2020/06/Bear-Wire-Newsletter-May-2004.pdf>

Ever wonder how many members in 2004 that are still members? Answer 22

### **Radio Fiesta 2021**

I am pleased to announce that West Gulf Division Director John Stratton has sanctioned Radio Fiesta, held on January 8 – 9, 2021 in Schertz, TX as an official ARRL Hamfest.

Once we get closer to the date and have more information on what's happening with COVID rules in the future, we will turn on the Eventbrite site and begin to sell tickets on line.

So, start saving now for Radio Fiesta 2021.

### **Robert Rodriguez Scholarship Raffle –**

We are still selling tickets for the Aug 13 raffle. Tickets are \$25 and are being sold by Rosendo, Bill, Tom.

---

### **Field Day 2020**

Construction and COVID have change the normal FD operations this year. We are not dragging tower, antennas, generator, etc to Schertz to set up our Field Day Operations. I know everyone is going to miss broiling in the hot sun, talking on radios in a toasty tent, and of course the tasty BBQ dinner.

This year we planned to limit our setup to Joe Bruno's storage facility grounds with limited antennas, and equipment, and no tower setup. However, at the last-minute Joe Bruno canceled the event in part because of previous night's heavy rain made the parking lot very muddy and of course, the COVID restrictions.

Other club members operated from home under the revised FD rules for 2020. With some magic, our combined QSOs will be combined for the clubs overall score.

Who knows this could be the new normal for FD.

### **Field Day Preliminary Report**

With the Covid 19 restrictions and caution, there's not much to report but here is what we know right now:

Tom O'Brien, AB5XZ, 20 contacts

Rosendo, N5YBG, 101 contacts

Jim Neff, WJ4M, 16 contacts

All logs were submitted to ARRL with San Antonio Radio Club affiliation.

**Vic Clark (Continued from Page 1)**

Some of our members may have worked the K4CG station in contests in the mid 1960's and 70's. This station was located in the same building as Vic's office, and certainly Vic helped to initiate and build it. *(Editor note: I visited that station, one LPA antenna had a 50' Rhone 25 tower as the boom! The operator would drink coffee, copy high-speed CW and carry on a conversation with you, all at the same time. I was in awe.)*

Vic had a saying that "Activity breeds activity". In other words, any action would encourage more action and reactions-- like a pebble being thrown into the water. Thus Vic spent much of his time encouraging amateur radio activity of any kind. New ham clubs, new repeaters, new contests, any way to broaden the many aspects of amateur radio he would support.

Some years after Vic's sudden death of a heart attack [on November 25] in 1983, a number of PVRC members got together and to tell stories about Vic. These are some of the stories told which everyone connected with swears is true! From Bill Levitt: "To help celebrate Armed Forces Day, hams were invited in to operate the Pentagon short-wave station WAR, work other hams, and exchange QSL's. Vic and others from the PVRC would go over and work shifts on such occasions. Vic amazed everyone by operating a shift two handed: Using separate receivers and transmitters, he'd write down a signal report being sent to him on one frequency with one hand, while sending 'CQ de WAR' with the other hand on another frequency. As soon as the report was complete Vic would acknowledge by sending an 'R' followed by 'QRZ' and so hook up with the next guy in the queue.

From Noton Richardson, W4KFT, "I was operating in an SS contest calling 'CQ de W4KFT'. When I went to listen someone came right back but not to me, but to W4KFC. Vic was right on my frequency, so I moved off and tried again, but again someone came back to W4KFC and Vic responded. This time, I moved again slightly off frequency, and set the equipment so I could

hear between the dots and dashes. What do I hear: 'CQ de W4KFT' and in perfect synchronism a DIT DAH DIT was being inserted by Vic after the 'T' in my call. Vic and I had a good laugh about that at the next PVRC meeting."

Vic himself once told the story to the PVRC club about him accompanying his XYL to the doctor. The doctor said he thought Vic's wife might be expecting. Then he asked Vic "when could that have happened?" Vic looked puzzled and said, "Well, I'll have to go home and check my log!!" The PVRC group knew it was true because he was on the air so much!"

From Jack Colson, W3TMZ (SK) "One day in the 1950's a group of us went over to Vic's to help repair his beam. Vic called CQ on his repaired antenna and a Russian UH8 came back. The UH gave Vic a terrific report and immediately asked him to test his phone on 14250. This was a standard practice for many DX stations in those AM days. Vic, in those days, was CW only and did not have a mike. Vic told the UH station he had no mike, but the UH kept coming back and requesting the QSY. Vic had a 8-inch outboard VFO, So Vic got on 14250, held down his key, and banged the top of his VFO to modulate it. The UH comes back and says "no copy, QRM try again" so this time Vic really gives the VFO a series of bangs and thumps and the UH comes back and says, :solid copy, please QSL." 50 years after the event, the group is still laughing about the event.

From WB4FDT: Back in the 1970's I attended a number of "Roanoke Division League Officials meetings" when Vic was Director. A number of times Vic would have a good idea, and rather than introduce it himself, would try to draw out the same conclusions from other individuals in his discussions with them, and then freely credit them with the idea. For example, the conversation would go something like this: Vic would say: How do you feel about XXXX. After receiving an answer, Vic would continue saying something like, "Well, maybe the ARRL should be doing this about XXXX." After receiving an affirmative answer, Vic would say, .You know, that sounds like a good idea, how about introducing it as a motion before the meeting so I can take it to Newington to work

on?. When the motion was introduced, Vic gave the individual full credit for it. I was brave enough to ask him about this once, and he said that he thought new ideas had a better chance of being implemented if it came from a member rather than from a Director.

A historical note about Vic in Virginia. Vic was a founding member of the Virginia CW Net (still meeting today on 3578.5 at 7PM est) in 1947, and remained active until his death. While he was the Virginia Section Communications Manager (now called simply .Section Manager.) in 1952-4 he published a monthly Virginia newsletter which advertised all the amateur radio activities in Virginia during the period. No doubt this publication encouraged amateur radio activity and today it is a gold mine of amateur radio history during this period.

When Vic was IARU Region II President, Vic got the idea that countries should issue stamps (for stamp collectors) honoring amateur radio. This would be great publicity for amateurs in those countries and would give them some government recognition. When Vic urged the member societies to ask their governments to issue stamps, many of them hesitated. Some told Vic that they did not want any undue attention by their governments toward amateur radio or their societies. Many simply did not know how to go about it. Vic kept urging them, and eventually a number of South/Central American countries did issue the stamps, usually honoring the 25th or 50th anniversaries of their amateur radio societies. In 1983, Vic met King Hussein of Jordan, ham call JY1, and urged him to issue a Jordanian ham radio stamp. A few months after Vic died a set of four stamps was issued showing the King in front of his ham station.

(Source: "Spark-Gap Times," OOTC)

News that Vic, the president of the ARRL, had died of a heart attack reached me at Comdex. I was very sorry to hear that, for Vic was undoubtedly the best president the League has had in many, many years. Indeed, I'd been working with him on the FCC's National Industry Advisory Committee just weeks ago and he had given me a lift to the airport after the meeting, giving us a chance to talk in private.

I had a lot of hopes that 73 and QST would be able to work more closely as a result of our talks since it was obvious that our end goals were similar. Obviously, that wasn't anything I could write about while Vic was alive, and it becomes irrelevant now that he's a silent key.

What a relief it was when the ARRL board elected a president with some brains and with more of an interest in helping amateur radio than basking in the glory of being president. Vic didn't see the presidency as an honor, but as a challenge.

He had his hands full, keeping him from being able to make fast headway. On the one hand, virtually all of the dedicated league old-timers had gotten fed up with Baldwin when he was General Manager and left HQ. And there were still far too many CW forever old-timers on the board, fighting change at every turn. But despite these serious handicaps, Vic was making progress.

Vic, like past president Herb Hoover, Jr, was interested in what he could do for amateur radio. We've had a serious loss.

(Source: W2NSD, 73 Magazine, March 1984)

## Silent Key Committee

From web master, Bill Craft, KD2HIQ

The web site now has a silent key page [ <https://w5sc.org/silent-key/> ] that provides information about thinking ahead and providing forms to document what you have.

SARC does not directly buy any SK equipment, we provide a service to help loved ones dispose of equipment. The service consists of information, consulting and possibly disposal of equipment by donation.

We encourage you to plan ahead and make those hard decisions ahead of time so those who are left don't end up dumping your equipment in the trash. Not everyone plans ahead, most us try to ignore the fact that at some point our health may fail or we may be called to meet our maker.

The goal is to help fellow hams and their families deal with this in their time of need. They do not have to be members of SARC for us to help. We offer our services to the ham community to benefit other hams and their families.

The committee can be reached by emailing [SilentKey@w5sc.org](mailto:SilentKey@w5sc.org)

SARC has had a Groups.io. Its name is saradioclub.

The saradioclub Group.io is being used to publicize SARC business meetings. It can be used for other things like promotion of VEC testing and classes. Members of the saradioclub Group.io can and have asked each other technical questions or sought assistance.

The saradioclub Group.io is a closed group. To become a member, go to [saradioclub.groups.io](https://saradioclub.groups.io). (You may need to have a Groups.io account.) You will then need to select *Apply for membership in this group*. This generates a message. SARC members can expect approval to join the saradioclub Group.io in probably less than 24 hours.

## SARC Tweets

Reminder: there are two active Twitter accounts for the San Antonio Radio Club. They are @SARadioClub and @ARadioFiesta.

The @SARadioClub is being used to publicize SARC meetings. It can be used for other things like promotion of VEC testing and classes.

When work again commences the @ARadioFiesta will be used for the January, 2021 Radio Fiesta.

SARC members are encouraged to follow both Twitter accounts.

## SARC Facebook

There is a San Antonio Radio Club – SARC (@saradioclub) Facebook Page.

The newsletter editor is making posts about SARC meetings and other activities. Any Officer, Committee Chairperson, or member who believes that they have information that should be posted to this page should contact the newsletter editor using the contact information for the newsletter editor on page 2 of this newsletter.

SARC members are encouraged to follow this Facebook Page

## SARC SLACK

There is a San Antonio Radio Club Slack team – w5sc.slack.com.

Slack teams are meant to foster communication between team members. Paul Guido, N5IUT, has established the w5sc.slack.com team for SARC. He has also established some channels. Think of the channels as topical areas.

To join send an email to Paul Guido, N5IUT, at [radioteacher@gmail.com](mailto:radioteacher@gmail.com). In actuality, any team member already a part of the w5sc.slack.com can invite you, but Paul is known to be on it.

### SARC has a website:

w5sc.org

Webmaster: Bill Craft KD2HIQ  
Billc851@gmail.com  
210-233-8863

### Amateur Radio License Classes

Multiple classes planned for 2019.

Instructor

### SARC Meeting Dates for 2020

- January 9, 2020
- February 13, 2020
- March 12, 2020
- April 9, 2020 **Cancelled, Zoom meeting on line instead at 7 PM. Check E-mail**
- May 14, 2020 **Via Zoom on-line.**
- June 11, 2020
- July 9, 2020 **(Via Zoom)**
- August 13, 2020
- September 10, 2020
- October 8, 2020
- November 12, 2020
- December – No meeting

Meetings are held at Blanco BBQ, 13259 Blanco Rd, San Antonio, TX 78216 at 7:00 p. m. Room is available at 6:00 p. m. for supper.

Come early and eat with other members

### License Testing Dates for 2020

- February 22, 2020
- April 25, 2020 **Cancelled**
- June 27, 2020 **Cancelled**
- August 22, 2020
- October 24, 2020

Times and locations along with required document information can be found on SARC's website.

SARC does all of its licensing testing as a part of ARRL Volunteer Examiner Coordinator (VEC) organization so all of the Volunteer Examiners in SARC are duly authorized Volunteer Examiners of ARRL's VEC.

### JOTA

Boy Scout Jamboree On The Air

This year's date is Oct 16-18, 2020.

More information will be available as the date draws closer.

### Emergency Communications

If you are interested in emergency communications, contact:  
JC Smith N5RXS

### Field Day 2020

**(Pending)**  
Setup: Friday, June 26, 2020  
Operations: Saturday, June 27, 2020  
& Sunday, June 28, 2020

*Where SARC proves they are an eating group with a radio problem.*

More information to follow, but hold these dates.
